DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-3 and 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ross et al. 6,610,770, in view of Beall et al. 5,804,613.
3. Both references have been discussed previously. When a patent describes optional additives, it means that it describes a composition with and without said additives. The rejection is maintained.

Response to Arguments

4. Applicant's arguments filed 12/15/05 have been fully considered but they are not persuasive. Ross et al. might list a large number of polymers, but they claim only seven and polycarbonates are among these seven (claim 4). The organic materials are not claimed as optional materials (claim 1) and carboxylic acids are specifically claimed (claim 3) as one out of two. Both materials are members of Markush groups, which means that they are individually claimed. Citric acid is part of a long list but it is clearly named. The rejection is made for obviousness only because Ross et al. fails to specifically describe the particle size of the nanoclay, however the claimed particle size is shown by Beall et al., who also display polycarbonate and carboxylic acid containing monomers, and it is a particle size, which is not uncommon in smectite clays. There is no showing of unexpected results because of the particle size. The rejection is maintained.

Allowable Subject Matter

5. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
